**We used 100% renewable electricity across our operations, successfully covering all of our non-renewable electricity volumes via green tariffs or Energy Attributes Certificates (EACs), except for our Sri Lanka volumes, as no EACs were available in the 2022 period in this market.
We made good progress in 2022 and we are committed to achieving even more in the years ahead. Setting ambitious sustainability goals is a critical part of delivering on our strategy and embedding it within the business. Our key targets are:

The IFS Code of Conduct

The IFS Code of Conduct is based on the Universal Declaration of Human Rights adopted by the United Nations, the UN Global Compact, the OECD (Organisation for Economic Cooperation and Development) Guidelines for Multinational Enterprises, the International Labor Organization’s Conventions and Recommendations, and the Swedish Corporate Governance Code.

Sustainable Procurement

We are committed to facilitating an ethical supply chain where modern slavery, human rights, and environmental considerations are integrated into our supplier due diligence and management. We also hold suppliers to our Code of Conduct as well as IFS Supplier Sustainability Policy, which applies to all suppliers globally.

Environment

We measure and report on our GHG (Greenhouse Gas) emissions through our global energy management system Resource Advisor, supported by Schneider Electric.

Decarbonization strategy

Our decarbonization strategy focuses on the following three areas:

- **Reduce**: Conduct operations more efficiently: energy efficiency assessment of Facilities, moving to more efficient sites, reducing business travel, using a network of sustainability business partners to drive reduction through the business.

- **Replace**: Switch from carbon-intensive energy to low-carbon sources: including Energy Attribute Certificate (EAC) purchase for renewable electricity and consideration of greener alternatives such as biogas for heating and cooling.

- **Engage**: Engage with customers and suppliers to drive transition to a low-carbon economy: including product carbon footprint and engagement with customers and suppliers.

Social

Our diversity and inclusion strategy has 5 core themes of Employee Representation, Employee Experience, Talent Lifecycle, Leadership Involvement and External Influence.

2022 Diversity Statistics
